

# Machine Learning at DoorDash: Live Tech Talk

SEPTEMBER 14, 12:00 PM PT

## EVENT DESCRIPTION

Machine learning infuses every aspect of DoorDash's tech stack, optimizing everything from deliveries to marketing spend. If you want to learn the latest in practical, applied machine learning, come join our upcoming Machine Learning Tech Speakers Series event.

You will hear from **Alok Gupta**, the director of our Machine Learning team, get insight from about our technology through short presentations, and hear team members discuss working at DoorDash. Hope to see you there.

## AGENDA

- **Lightning talks** – Quick presentations on applied machine learning
- **Roundtable** – Team members discuss working at DoorDash
- **Q&A** – Answering your questions about our team and technology
- **Duration** – 1 hour

## YOU WILL LEARN ABOUT

- Intro to Machine Learning at DoorDash
- Knowledge graphs
- Optimal driver selection
- Forecasting
